

# Water Pouring STATION

A Fun Hands-On Water Play Activity!

Pour • Experiment • Learn • Have Fun! ♥

## Benefits of Water Play:

- ✓ Builds fine & gross motor skills
- ✓ Develops hand-eye coordination
- ✓ Encourages problem solving
- ✓ Boosts creativity and curiosity
- ✓ Provides sensory fun ♥

## What You Need:

-  Large plastic tub or container
-  Wooden board or sturdy stand (optional)
-  Funnels
-  Plastic bottles, jars or containers
-  Cups, spoons and measuring containers
-  Water ♥

## Fun Pouring Ideas:

### 1. Fill & Pour

Use cups to fill containers and watch the water flow. ♥

### 2. Mix & Move

Add food colouring and mix waters to create new colours. ♥

### 3. Water Wheel

Pour water onto a water wheel and watch it spin! ♥

### 4. Build & Explore

Create your own pouring system with bottles, funnels and tubes. ♥

## Try These:

- ✓ Pour water from tall to short containers.
- ✓ Use different funnel sizes.
- ✓ Add ice cubes and see what happens.
- ✓ Use sponges or water toys.
- ✓ Create a mini river or waterfall. ♥

## Safety Tips:

- ✓ Always supervise young children.
- ✓ Use on a flat, stable surface.
- ✓ Keep the water area close by to a drain (or outside).
- ✓ Use child-friendly, non-breakable containers.
- ✓ Encourage gentle pouring. ♥
