

Water Play STATION

Cool • Splashy • Full of Fun!

Sensory Play for Happy, Healthy Kids!

Benefits of Water Play:

- ✓ Builds fine & gross motor skills
- ✓ Boosts creativity
- ✓ Encourages problem solving
- ✓ Develops hand-eye coordination
- ✓ Provides sensory fun

What You Need:

- Large tub or plastic container
- Water
- Measuring cups and spoons
- Funnels
- Small boats, animals or toys
- Ice cubes (optional)
- Food colouring (optional)

Fun Water Play Ideas:

1. Pour & Measure

Use cups, spoons and funnels to pour, fill and measure water.

2. Boat Races

Let the kids race small boats and see which one is the fastest.

3. Colour Mixing

Add food colouring to water and let kids mix and create new colours.

4. Frozen Fun

Freeze toys in ice cubes and let kids explore how they melt.

More Water Play Activity Ideas:

- Floating & sinking objects
- Splash art with brushes
- Bubble play (add dish soap)
- Underwater treasure hunt
- Clean the toys

Safety Tips:

- ✓ Always supervise young children.
- ✓ Use clean, fresh water.
- ✓ Keep the play area on a flat, non-slip surface.
- ✓ Empty and dry the station when not in use.

Get Creative!

- ✓ Add natural items like leaves, flowers or stones.
- ✓ Use recycled containers and kitchen tools.
- ✓ Try different textures – water beads, foam, or sand.
- ✓ Let your child's imagination lead!
